Certificates   **React hooks , Ecommerce Website , Full-Stack Web Developer**

Education

B.Tech in CSE	**Galgotias University**	Noida	**2021 - 2025**

- Computer Science Engineering

Intermediate	**Ram Krishna Dwarika College**	Patna	**2018 - 2020**

Projects

- **University Management System** **Live**

  : Our **University Management System** offers a seamless platform for admins to register users, assign unique IDs and passwords to teachers and students, and efficiently manage academic operations. With an integrated **fees collection system**, online payments are handled securely and effortlessly. Developed using **React, Node.js, Express, and MongoDB**, this system provides a **scalable, secure, and efficient** solution for modern educational institutions.

- **Advanced Virtual Assistant** **Live**

  : The Jeetu 2.0 is a cutting-edge AI-powered assistant built using **React and the Gemini API** for seamless interactions. Designed for efficiency, it adapts to user needs, making workflows smoother and more productive. With a sleek UI and powerful backend, Jeetu 2.0 ensures fast, accurate, and context-aware communication.

- **Background Removal AI Saas With Payment integration** **Live**

  : Developed an AI-powered background removal SaaS with user **authentication** via **Clerk and secure payment integration.** Enabled seamless login, instant image processing, and premium feature access through a scalable and high-performance platform. Focused on delivering a smooth user experience with reliable and efficient technology.

- **Google Search Engine** **Live**

  : My Google Search Engine Clone, built with React and the **Google API**, delivers lightning-fast search results in real time. With a sleek, intuitive UI and seamless **API integration**, it enhances the search experience effortlessly. Designed for speed and accuracy, it provides a powerful yet **user-friendly** search solution.

Deployment

     : Hosted frontend and backend services on Vercel and Render seamlessly deployed from GitHub for continuous integration and automatic updates. Configured for high performance, scalability, and efficient API communication, ensuring optimal user experiences.
